

## 瑞士瓦尔斯7132酒店 HOTEL 7132, VALS SWITZERLAND

1996年，彼得·卒姆托修建了温泉浴场，让瓦尔斯这座小山城成为了建筑爱好者向往的胜地。7132酒店是按照瓦尔斯城的邮政编码来命名的，瓦尔斯城也因此更加名声在外。2012年，7132酒店开始着手酒店的翻修工作。管理层选择与国际著名建筑师合作，让他们可以按照自己的想法自由设计酒店的单间和套房。日本建筑师隈研吾先生设计的新客房的三间套房于近日完工。这位日本建筑师熟悉并了解卫浴产品的特点及优势，他在套房内安装了带有卫洗丽®功能的TOTO 诺锐斯特®智能全自动坐便器，以匹配其简约优雅的风格。现在，越来越多的欧洲住客正感受着卫洗丽®产品所带来的舒适生活体验。

When Peter Zumthor built the thermal baths in 1996, the small mountain town of Vals became a mecca for architecture enthusiasts. Hotel 7132, named after Vals' postal code, intends to enhance this reputation even further. Gradual renovations on the hotel started in 2012. The management chose to work with internationally renowned architects, giving them free hand to design the rooms and suites as they wished. The new rooms and three suites designed by Kengo Kuma were just recently completed. Kuma installed NEOREST® AC WASHLET®s in the suites, which matched their simple elegance. The Japanese architect was, of course, familiar with the shower toilets and the many advantages they offer. Today, more and more European guests are also learning to appreciate the clean feeling they experience after using the WASHLET®.
